Introducing the Aspen, an inviting two-story home plan with plenty of space. As you enter, you're immediately greeted by the Great Room and the open concept living design, which is perfect for entertaining friends or family. Prepare meals in the large L-shaped kitchen with walk-in pantry while enjoying conversation in the adjacent dinette or great room. Upstairs you'll find a luxurious primary suite complete with huge walk-in closet, linen closet, and private water closet. There are also three additional bedrooms (two of which have walk-in closets) as well as a full bathroom and laundry area to round out the second floor amenities. Additional features include stairs conveniently located in the back corner off of the dinette area and a rear foyer off of the garage that includes a closet for added storage convenience.
